03 UK wide numbers are a new range of non-geographic telephone numbers that have been launched by the telecommunications regulator Ofcom as a result of the negative publicity associated with many non-geographic numbers. Their intention is to restore consumer confidence trust and certainty in what is undoubtedly a confusing and increasingly complex area.

One benefit of this number range is that it costs the same to call as a standard landline number, which begins with 01 and 02 from a landline.

However, the main benefit is that if you call from a mobile, the call will either be free, if included within your free minutes package or charged at the standard rate for calling geographic numbers beginning 01 or 02 (No premium tariffs).

**To help us provide a first class service, we may record your telephone calls.**

## Section 4 Mis-fuelling

In the event **your vehicle's** fuel tank is filled with the incorrect type of fuel, **we** will arrange and pay up to £250 (inclusive of VAT) for **our** Agent to either recover **your vehicle** and the passengers to the Agent's base where a drain and flush to **your vehicle's** fuel tank can be conducted or, to conduct the fuel drain and flush at the roadside. If **you** would prefer a fuel drain and flush to be conducted by **your** preferred repairer, **we** will arrange and pay for a **recovery operator** to transport **your** vehicle, **you** and your passengers to a local repairer of **your** choice. Subject to **our** prior authorisation, **we** will also reimburse the cost of a fuel drain and flush. Any reimbursement will only be made once **we** have received copies of valid receipts detailing the work carried out by **your** preferred repairer.

Subject to the total claim cost not exceeding £2,500, **we** will then reimburse the parts and labour costs incurred once **we** have received copies of valid receipts detailing the work carried out by the repairer.
